

AFFORDABLE HOUSING

The map below indicates the sites selected for possible development of affordable housing during a consultation undertaken by the Parish Council in 2009. The preferred order of development established by public consultation at the time is indicated on the map. However the Parish Council subsequently decided to support the development of Site 5 opposite Parsonage Farm in preference to Site 9 at Collaton as it was seen to be the most financially advantageous, as well as providing good access to Newton village centre, the school, etc..
